

WHY FALCON?

You may be thinking “This job description is right up my alley, but what makes Falcon different from all of the other engineering firms out there?” To make it easy, we’ve rounded up five ways Falcon’s culture may resonate with you.

- 1. YOU'RE NOT A NUMBER.**
Falcon is a small to mid-sized firm. Everybody plays an important role in the success of our company – our ideas are heard, and our contributions are recognized. At Falcon, you will not just be another number on the payroll. Be prepared to be an active and dynamic employee who is ready to dive in and lend your talents and capabilities for the betterment of the team.
- 2. YOU HAVE A LIFE.**
Falcon understands the importance of life outside of work – family, hobbies, travel, or just plain rest. While we may come in early or stay late to get the job done, and done right, we honor a flexible work schedule. We believe that our employees are at optimal performance when they are happy and re-fueled for the days and weeks ahead.
- 3. YOU LIKE TO HAVE FUN. (WHO DOESN'T?)**
Falcon is a hardworking, intelligent bunch who also knows how to have a little fun. We like to celebrate all the things around here – birthdays, work anniversaries, holidays, or hey, just because it's Friday. These celebrations are usually accompanied with some form of sweet treat, a bbq spread, and/or an occasional cold beverage. For good measure, we also like to throw in a homemade game or two – think adult Easter egg hunts and nerf gun turkey shoots. We're not the fancy kind – just good people who enjoy good company and a good laugh.
- 4. YOU'RE A TEAM PLAYER.**
We have coined the term “Falcon Family,” because we are much more than a bunch of professionals working under the same roof. We are a family who is invested in each other and our clients. It doesn't matter your role or which department you reside, we all work together to make Falcon the best that it can be.
- 5. YOU HAVE A LOVE/HATE RELATIONSHIP WITH CANDY.**
Ever get that 3pm slump, and in need of a little sugar rush to get you through that 5pm deadline? No problem! We've got a bottomless candy bowl at your service. Whether you're a candy bar connoisseur or more of the fruity type, we've got you covered. Oh, and we've got coffee too, but isn't that a given?

WHAT OUR EMPLOYEES ARE SAYING...

- “ The collection of professionals here have a tremendous combination of personality and knowledge. So many are able to explain complex subjects in a friendly manner to both technical experts and those with little knowledge of the subject matter. I have never worked with a more dedicated and knowledgeable staff.
– Scott Hunsberger, PE, Geotechnical Engineer
- “ I enjoy accomplishing new things on a daily basis with a great team to learn from. Being new to the field, a team that has the skill and patience to educate me is very valuable.
– Robert Lane, GIT, Geotechnical Staff Professional
- “ I enjoy the challenging projects, continuing education, and great colleague relationships – teamwork.
– Shaun Quinn, CWI, Engineering Technician
